

WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION

RESOURCE ORDER FORM

Coming in 2004!

Human Growth & Development: A Resource Packet to Assist School Districts in Program Development, Implementation, and Assessment (4th Edition, 2004)

This resource packet is designed to help local school districts develop, review, or address issues related to their Human Growth & Development (HGD) program. The packet explores such issues as state statutes, research on teen sexual issues and behavior, samples of locally developed HGD materials, and evaluation tools. 2004. (A limited number of 3rd Editions are available.)

2003 Wisconsin Youth Risk Behavior Survey—Executive Summary and CD

In the spring of 2002, a select number of high schools throughout the state participated in a study of student behaviors and perceptions in a variety of health and safety areas. As a result, information is now available that can lead to solutions to the challenges facing many young people in our state. 2003.

2002 Wisconsin School Health Education Profile

The purpose of this survey of principals and health education teachers is to learn about the status of health education and policies related to HIV, tobacco, physical activity, and nutrition at the middle/junior and senior high school levels. In Wisconsin, the SHEP is conducted once every four years and is critical for developing programs to meet the health and safety needs of our students, creating requests for funding, and reporting to the state legislature. 2003, 42 pp.

Answers to Frequently Asked Compulsory School Attendance Questions

This document outlines the rights and responsibilities related to attendance in Wisconsin public schools. 2004, 28 pp.

Answers to Frequently Asked School Age Parents Questions

This bulletin addresses the most frequently asked questions regarding the necessary and recommended instruction and services for school age parents. It includes descriptions of available community-based services for school age parents, the applicable state statutes and administrative rules, and a brief summary of the reporting requirements related to categorical aide reimbursement. 1999, 20 pp.

CDC's Guidelines for School Health Programs to Prevent Tobacco Use and Addiction

Based on research and best practices, these guidelines offer recommendations for the types of school programs and policies deemed effective in preventing tobacco use. The full report is 20 pp., overview is 2 pp.

CDC Guidelines for School Health Programs to Prevent Unintentional Injuries & Violence

These guidelines were designed to help state and local education agencies and schools promote safety and help schools be safe places for students to learn. Available in three formats: Full report (84 pp.), overview (4 pp.) and fact sheet (2 pp.). 2001.

CDC Guidelines for School Programs to Prevent Skin Cancer

These guidelines were designed by the Centers for Disease Control and Prevention (CDC) to provide schools with a comprehensive approach to preventing skin cancer among adolescents and young people. They are based on a review of research, theory, and current practice in skin cancer prevention, health education, and public health. 2002, 26 pp.

Citizenship: Building a World of Good

This tool kit explains the seven characteristics of effective schools, provides an inventory to assess perceived strengths in each of these characteristics, and gives practical ideas to help schools implement the characteristics in their building. 1998, 74 pp.

Clear the Air: A Secondhand Smoke Tool Kit

This tool kit is designed to provide middle and high school teachers with information around the issue of secondhand smoke. The tool kit provides resource materials targeting classroom curriculum, youth activities/advocacy, policy, research, and websites, focused around secondhand smoke. 2003, 61 pp.

Confidential Services Available to Youth in Wisconsin

This document describes the circumstances in which youth may access confidential services independently, according to Wisconsin law. These circumstances include school services, services for runaway youth, sexual assault and domestic violence services, family planning services, legal representation, alcohol and other drug and mental health services, and HIV test results. This document also includes a description of other resources and provides referenced statutes. September 2003, 9 pp.

Health Literacy Performance Assessments: 2004-2005 Edition

The 2004-2005 edition contains over 200 assessment strategies to enhance your instruction on health and safety issues. Packaged by 16 content areas and 3 "Best of the Best" issues, and organized by elementary, middle, and high school assessments in a convenient CD, this edition builds on work done since 1999 and adds some assessments developed by Wisconsin educators. This edition includes one new packet: Character Education. 2004.

Homebound Instruction: A Question & Answer Document for Parents & Guardians Homebound Instruction: A Question & Answer Document for School Districts

These documents provide guidance to school districts, parents, and guardians regarding homebound instruction for children unable to attend school due to health reasons. 2001, 3 pp. ea.

Learning Modules on Social Norms: Using the 2003 Wisconsin Youth Risk Behavior Survey Results

This packet of instructional strategies will assist educators with putting together a state-of-the-art unit of instruction concerning youth health risk behaviors. 2004, 24 pp.

Learning Modules on Social Norms in Youth Tobacco 2004

This resource packet includes teaching strategies that will help teachers instruct tobacco normative information with their middle and high school students utilizing Youth Tobacco Survey Information. 2004.

Model Bloodborne Pathogens: Exposure Control Plan for Wisconsin Public Schools

This is a model of an exposure control plan to prevent and minimize employee exposure to bloodborne pathogens. The web-based version at www.dpi.state.wi.us/dpi/disea/sspw/bloodborne.html can be modified to fit the district's needs. 2001, 91 pp.

My Child's Been Expelled...Now What?

This brochure was prepared for parents and guardians of expelled students. It includes key facts about expulsions, the school's and parent's responsibilities, options for continuing education, information regarding returning to school, other support services, and appeals. 2004. (Also available in Spanish and Thai).

Offering Educational Opportunities to Expelled Students in Wisconsin

This document includes examples from a range of programs. It provides many sound reasons and strategies to help pursue educational success for students who have been expelled or are at risk. 2001, 36 pp.

The Power of Teaching: Characteristics of Effective Classroom Instruction on Health and Safety Issues

This publication defines a common set of prevention characteristics that cut across a variety of youth risk behavior curricula, and can assist schools in developing instructional programs and activities that are grounded in research and best practice. 2004, 20 pp.

Reporting Requirements for Sexually Active Adolescents, and Related Statutes

This document is intended to help school districts, in collaboration with their county child protective services agency, develop policies and procedures to address situations where school staff becomes aware that a student is sexually active. Applicable statutes and definitions are included for reference. 2001, 10 pp.

Resources for School Tobacco Programs: A Selected List

This descriptive list of resources and programs is designed to help Wisconsin school-communities select materials that will assist them in implementing effective programs and policies to help reduce tobacco use among youth. 2003, 10 pp.

School HIV/AIDS Policy Tool Kit

The purpose of the tool kit is to provide school districts with the necessary resources, including policy guidance and sample policies, to assess, develop, and implement policies and procedures related to HIV/AIDS. 2003.

Self-Assessment Instruments for Comprehensive School Health Programs

Four separate tools are available to assess and plan for development of a comprehensive school health program (Development Readiness, Content Checklist, Component Quality, and Integration). Each tool has action planning forms and a completed example of how they might be used in a school or district to select and plan next steps. 1997.

Sharing Information Across Systems

This resource is designed to help local school districts and their community partners develop local policies, procedures, and agreements regarding how they will share information across systems (law enforcement, the courts and juvenile justice, social services, and health). 2004, 28 pp.

Student Records and Confidentiality

This Q&A document is designed to help school districts develop local policies that are consistent with both state and federal laws regarding pupil records. Areas covered include definitions, access and disclosure, maintenance and transfer, parents' and students' rights and access, and additional requirements related to special education. 2004, 20 pp.

Teen Parent Resource Packet

This resource packet was developed through the collaborative work of a number of work groups of the Wisconsin Adolescent Pregnancy Prevention Committee as part of its ongoing efforts to implement the Wisconsin Plan to Prevent Adolescent Pregnancy. The Wisconsin Adolescent Pregnancy Prevention Committee has broad representation from a variety of state agencies and local organizations concerned with teen pregnancy. 2004.

Tools for Comprehensive School Health Programs

This three-packet series provides critical information and useable checklists to help develop **community health and safety councils**, organize and implement **effective meetings**, and connect **speakers** in the community with schools to enhance health and safety instruction. 2000.

Wisconsin's Framework for Comprehensive School Health Programs

The Framework is a multi-strategy approach that addresses the entire range of youth risk behaviors and promotes the health, well-being, and positive development of students and other members of the school-community as an integral part of a school's mission. The following documents, all based on this framework, are available: An Integrated Approach. 1997, 24 pp.; Case Studies in Progress. 1998, 90 pp.; Video. 1998, 10 minutes.

Youth and HIV/AIDS: Resources for Educators, Policymakers, and Parents (2003-2004)

This document provides information about resources that can guide the development, implementation, and evaluation of HIV and other STI prevention education for school-age youth. Also provided is information about resources that increase the awareness of those infected and affected by AIDS and HIV. 2003, 30 pp.

Youth to Youth: An Evaluation of State AODA Funded Peer Programs in Wisconsin 2001-2002, Executive Summary

The purpose of the Wisconsin Peer Program Evaluation Study was to (1) identify key characteristics of effective peer programs, (2) the extent to which these characteristics are present in Wisconsin school-based peer programs that are supported, at least in part, by Alcohol and Other Drug Abuse funds administered by the Department of Public Instruction, and (3) to describe the benefits and results of these peer programs in Wisconsin Schools. 2002.
